HIGHLAND - UNIVERSITY.

HIGHLAND, KANSAS.

1888-'89 and 1889-'90.

HIGHLAND:
UNIVERSITY NUNCIO.
1890.

CORPORATE NAME,

Board of Trustees of Highland University.

Board of Trustees.

One third of whom are appointed yearly by the Synod of Kansas, in connection with the General Assembly of the Presbyterian Church in the United States of America, and whose term of office expires as follows:

1890.

REV. A. B. IRWIN,	Highland,	Kansas.
REV. CHAS. P. SPINING,	"	"
REV. H. O. SCOTT,	Hiawatha,	"
REV. J. B. RICHARDSON, D. D.,	"	"
REV. J. H. MILLER, D. D.,	Rich Hill,	Mo.
REV. DANIEL KLOSS, D. D.,	Highland,	Kansas.
WM. H. BAYLESS.	"	"
J. A. LEONARD,	"	"
C. H. MARSTON,	"	"

1891.

REV. M. F. HOWIE,	Atchison,	Kansas.
REV. WM BISHOP, D. D.,	Salina,	"
REV. ABRAM STEED,	Belleville,	"
B. D. WILLIAMS,	Highland,	"
HARRISON DILLON,	"	"
LEVI CLOSE,	Leona,	"
JOHN K. BENDER,	Highland,	"
DUNCAN McINTOSH,	"	"
R. W. McAFEE,	Collinsville,	Ill.

1892

REV. D. BROWN, D. D.,	Brookfield,	Mo.
HON. B. O. COWAN,	New Point,	"
HON. E. N. MORRILL,	Hiawatha,	Kansas.
W. H. FORBES,	Highland,	"
T. A. BANNING,	Hyde Park,	Ill.
S. M. ALLEN	Highland,	Kansas.
HON. J. P. JOHNSON,	"	"
H. V. PARTCH,	"	"
W. E. LEWIS, M. D.,	"	"

Officers of the Board.

DUNCAN McINTOSH, PRESIDENT. J. A. LEONARD, VICE PRESIDENT.
S. M. ALLEN, TREASURER. W. H. BAYLESS, AUDITOR.
W. E. LEWIS, M. D., SECRETARY.

FACULTY.

REV. ALBERT B. IRWIN, A. M., PRESIDENT PRO TEM.,
Mental and Moral Science.

CHARLES H. BAYLESS, A. M.,
Mathematics and Natural Sciences.

C. U. CARRUTH, A. B.,
Ancient Languages.

MRS. D. E. TODD, A. M.,
German and French.

REV. D. E. TODD, A. B.,
Assistant in Classics and Mathematics.

MRS. L. V. MORTON,
Music and Drawing.

MISS MAMIE McINTOSH, A. B.,
Assistant in Academy.

W. E. LEWIS, A. M., M. D.,
Lecturer on Anatomy, Physiology and Hygiene.

CHARLES M. SPINING,
GEORGE E. PARTCH,
Instructors in Mathematics.

WILLIAM P. JAMES,
Instructor in Latin.

MISS MAMIE McINTOSH, A. B.,
Principal of Preparatory Department.

C. U. CARRUTH, A. B.,
Librarian.

MRS. E. SCOTT,
Matron.

P72-01

Faculty for 1888-'89 as follows, with the above names not repeated:

REV. DUNCAN BROWN, D. D., PRESIDENT.,
Mental and Moral Science and English.

MRS. S. T. McKINNEY, B. S. D.,
History and English Literature.

REV. ALBERT B. IRWIN, A. M.,
Special Assistant in College Classes.

O. C. MAXWELL,
Principal of Business Department.

FALL AND WINTER TERMS.
REV. DANIEL KLOSS, D. D.,
German and French.

SPRING TERM.
MRS. D. E. TODD, A. M.,
German and French.

NOTE—The chair of mathematics will hereafter be named after Hon. J. P. Johnson who has endowed it. The president's chair has been endowed by the people of Highland.

Calendar, 1889-'90.

Opening Reception	Sep. 10.
Fall Term of fifteen weeks	Sep. 11, to Dec. 20.
Thanksgiving Day	Nov. 28.
Winter vacation	Dec. 21, to Jan. 7, 1890.
Winter Term of twelve weeks	Jan. 8, to March 21.
Day of prayer for colleges	Jan. 30.
Open session Atelceta and Erodelphian literary societies	March 14
Spring vacation	March 21, to April 1.
Spring Term of nine weeks	April 1, to June 5.
Baccalaureate Sermon	June 1.
Address before Christian Associations	June 1.
Field Day	June 2.
Address before Literary Societies	June 2.
Graduation from the Academy	June 3.
Prize Declamation	June 3.
Alumni Day	June 4.
Annual Meeting of Board of Trustees	June 4.
Oratorical Contest	June 4.
Commencement	June 5.
President's Reception	June 5.

Fall Term opens Sept. 10th. 1890.

UNDERGRADUATES 1889-'90.

College Department.

SENIOR CLASS.

Geer, Nettie,	Highland.
James, William Pence,	Wichita.
McCreary, Minnie Angelina,	Highland.
Partch, George Enos,	"
Spining, Charles Martin,	"

JUNIOR CLASS.

McIntosh, William,	Highland.

SOPHOMORE CLASS.

Hickman, Norman Kerr,	Robinson.
Kercher, Delno Ernest,	Leona.
Moll, George,	Highland.

FRESHMAN CLASS.

Dillon, Benjamin Franklin,	Highland.
Hutt, Sophia Cornick,	"
Leonard, Ward Holmes,	"
McCreary, Mattie,	"
Steanson, Lawrence,	Norway.
Vinsonhaler, Jennie May,	Highland.

SPECIAL STUDENTS.

Brewster, Sardius M.,	White Cloud.
Hills, Phebe,	Highland.
Shields, Samuel McCutchen,	"
Towle, John W.,	Falls City, Neb

ORDER OF STUDY.

COLLEGE.

FRESHMAN YEAR.

First Term.

Latin, Livy: *Anthon.*
(C) Greek, Xenophon's Anabasis: *Boise.*
Mathematics, Plane Geometry: *Loomis.*
History of Greece: *Smith.*
(S) German or French.
Old Testament History.

Second Term.

Latin, Virgil, Prosody: *Anthon.*
(C) Greek, Memorabilia: *Anthon.*
Mathematics, Solid Geometry: *Loomis.*
History of Rome: *Liddell.*
(S) German or French.
New Testament History.

Third Term.

Latin, Virgil, Composition.
(C) Greek, Gospel of John, Composition.
Mathematics, Conic Sections: *Loomis.*
History of Rome: *Liddell.*
(S) German or French.
Biblical Antiquities.

SOPHOMORE YEAR.

First Term.

Latin, Horace, Odes: *Anthon.*
(C) Greek, Homer's Iliad: *Anthon.*
Mathematics, Plane Trigonometry: *Loomis.*
History of Civilization: *Guizot.*
(S) German or French.
Biblical Geography.

Second Term.

Latin, Horace, Satires and Epistles.
(C) Greek, Homer and Acts of the Apostles.
Mathematics, Surveying: *Loomis.*
English Literature: *S. A. Brooke's Outlines.*
(S) German or French.
Books of the Bible.

THIRD TERM.

Latin, Tacitus, Germania and Agricola.
(C) Greek, Demosthenes, DeCorona.
Mathematics, Spherical Trigonometry.
English Literature, Studies of Authors.
(S) German or French.
Versions of the Bible.

JUNIOR YEAR.

FIRST TERM.

Latin, Tacitus' Histories: *Tyler.*
[C] Greek, Herodotus.
Mathematics, Analytical Geometry: *Loomis.*
Greek Literature.
Evidences of Christianity: *Fisher.*
Bible Biography.

SECOND TERM.

Latin, Cicero DeOfficiis: *Anthon.*
[C] Greek, Thucydides.
Mathematics, Calculus: *Loomis.*
Botany: *Wood.*
Chemistry: *Steele.*
Life of Christ.

THIRD TERM.

Latin Literature.
[C] Paul's Epistles.
Mathematics, Calculus.
Botany: *Wood.*
Zoology: *Steele.*
Work of the Apostles.

SENIOR YEAR.

FIRST TERM.

[C] Greek, Plato's Apology and Krito.
Astronomy: *Loomis.*
Geology: *Dana.*
Philosophy of History, Lectures.
Church History.
Orations.

SECOND TERM.

(C) Sophocles' Oedipus Tyrannus.
Mental Philosophy: *Haven.*
Logic: *Joven.*
Political Economy: *Thompson.*
Church History.
Orations.

THIRD TERM.

History of Philosophy: *Schwegler.*
Mental Philosophy: *Haven.*
Moral Science: *Hickok.*
Butler's Analogy.
Christian Missions.
Orations.

ACADEMY.

JUNIOR YEAR.

FIRST TERM.

Arithmetic: *White.*
Etymology: *Swinton.*
Political Geography: *Barnes.*
Orthography.
Elocution.

SECOND TERM.

Arithmetic: *White.*
Syntax: *Swinton.*
History of United States: *Barnes.*
Penmanship.
Elocution.

THIRD TERM.

Arithmetic: *White.*
Composition: *Swinton.*
History of England: *Lancaster.*
Penmanship.
Elocution.

MIDDLE YEAR.

First Term.

Latin: *Harkness.*
Algebra, Elements: *Loomis.*
Analysis: *Greene.*
(B) Book-keeping.
(N) Physical Geography.

Second Term.

Latin: *Harkness.*
Algebra, Elements: *Loomis.*
General History: *Barnes.*
(B) Book-keeping.
(N) Physical Geography.

Third Term.

Latin: *Harkness.*
Algebra, Elements: *Loomis.*
General History: *Barnes.*
Civil Government: *Cocker.*
Physics: *Gage.*

SENIOR YEAR.

First Term.

Latin, Cæsar: *Harkness.*
(C) Greek, First Lessons.
Algebra, Higher: *Loomis.*
Rhetoric: *Hart.*
(S) German or French.

Second Term.

Latin, Sallust: *Harkness.*
(C) Greek.
Algebra, Higher: *Loomis.*
American Literature: *Royce.*
(S) German or French.

Third Term.

Latin, Cicero's Orations: *Harkness.*
(C) Greek.
Algebra, Higher: *Loomis.*
Mythology: *Seaman.*
(S) German or French.

(C) Classical. (B) Business. (N) Normal. (S) Scientific or Literary.

REMARKS.

There are three full collegiate courses, CLASSICAL, SCIENTIFIC and LITERARY, each of which occupies four years.

THE CLASSICAL COURSE includes a thorough training in English, Latin, Greek, Mathematics, History and Natural, Mental and Moral Sciences. It aims to develop and discipline the mind, and gives a sound foundation for any line of professional or business work.

THE SCIENTIFIC COURSE takes German instead of Greek and gives special attention to advanced studies in Natural Science and Applied Mathematics. This course will be especially useful to those expecting to take up some branch of Mechanics or Civil Engineering.

THE LITERARY COURSE takes German instead of Greek, French instead of Latin after Virgil, and gives special attention to Rhetoric, Literature and Composition.

General study of the English Bible, and practice in Rhetorical and Elocutionary exercises throughout the course.

The curriculum will be revised in some particulars but not so as to interfere with the plans of any one intending to enter the Freshman class.

ENTRANCE.

Two years' work in Latin, (Harkness), two in Algebra, (Loomis' Elementary and Treatise), and one in Greek, (Harkness or White), or a fair equivalent, are required for entrance in the Classical Course. Graduates of any High School whose curriculum admits to the State University, may enter the Freshman Class without examination, on presenting their diplomas, making up a year of Greek or German before graduation.

GENERAL PLAN.

Less is required in Classics and Mathematics for entrance than in many Colleges, but the same amount is taught in the course by continuing them through the Junior and Senior years. This plan seems to harmonize better with the work in our public schools, and with the general stage of advancement of those coming in as students, and we believe it will produce better results in the end. Nothing is slighted on account of it. We try to adapt our work to the real needs (not always the desires) of our students, rather than to require that all studies shall be made to fit some preconceived theory.

The old plan was to put all of the sciences far on in the college course. Many of them, however, are now required in our higher public schools, and with the greatly increased facilities for, and need of information and practice in, the simpler sciences, there seems to be no good reason in the West, at least, where people look so much to

the practical, why several of them should not wisely be placed among the Preparatory or Academic studies, and the Greek and Latin moved forward correspondingly. In mathematics our plan is to finish Algebra in the Academic course, then take Geometry through, including Conic Sections, in the Freshman year. This seems to work better and saves some confusion.

ACADEMY.

COMPLETE COURSE three years, TEACHERS and BUSINESS COURSE two years.

THE COMPLETE ACADEMIC COURSE occupies three years, though students well advanced in common school studies may finish it in one or two years. It prepares students for the College courses, and for thorough work in business or teaching.

This Academic course has been carefully arranged and organized to supply a definite want in education in the West. In the absence of preparatory academies, and for the sake or economy and convenience, nearly all western colleges must prepare their own students for entrance, and this is done best by a clear and definite plan of study. Again, as very many students are not able to go through the college course, they need definite plans and organization in their studies all the more, as far as they go. This is more important from the fact that the great majority of students in nearly every western college are really only in the Academic grades, and to give all the best efforts of instructors only to the college students proper, is a manifest injustice to this majority. It is better to recognize the facts as they exist, and do the best work possible for all our students.

THE TEACHER'S OR NORMAL COURSE includes the first two years of the Academy, substituting, if desired, Rhetoric and Botany for Latin and giving special attention to theory and practice of teaching. This includes all the branches ordinarily required for a first grade certificate in Missouri or Kansas. German or Latin, or both, may be taken in this course, if desired. Latin is recommended to all, as it is taught more and more in our public schools, thus creating a demand for those who can teach it.

THE BUSINESS COURSE occupies two years, substituting German for Latin, and giving special prominence to Penmanship, Practical Arithmetic and Book-keeping. Students who are thorough in all the common school branches, can complete this, or the Normal course, in one year, by earnest application; but they are advised to come at least a second year, if possible, and finish the Academic course.

Special studies may occasionally be accepted by the Faculty, as equivalents for others of like grade and disciplinary value, in any course, particularly in the higher classes, but preference is always given to the regular courses.

DEGREES.

Appropriate Degrees are conferred upon all graduates in the College Courses, and Diplomas are given to those who complete the Academic, Normal or Business Course. Graduates in these may return at any time and enter classes for the College Courses.

ARRANGEMENT.

Our aim is to present such definite lines of study as will best meet the needs of western students. We make no pretense of teaching everything, but we aim to give students such mental discipline and training in the most needful branches of knowledge as shall be most helpful in their life work. We strive to interest and draw out, as well as instruct the student, believing that to be the truest education which best develops and trains all the powers of each individual. We unhesitatingly recommend the Classical Course, as proved by experience to be the best for this purpose, to all who have the time and means and the will to master it. A thorough study of the best Ancient Languages and Literature will give a far more effective knowledge and use of our own.

The curriculum comprises all the studies usually pursued in Academic or Collegiate courses. Students who have passed through the ordinary common school studies, with a fair knowledge of Arithmetic, Grammar, Geography and History, can enter the Academic Department without difficulty. Graduates of the town high schools can generally enter the Freshman or Sub-Freshman class, by giving special attention to Latin and Greek. Particular attention will be given to the study of the English language and its use, including Orthography, Grammar, Analysis, Rhetoric and Elocution. The last two will be further brought out by weekly Rhetorical exercises, in which every student is expected to take part.

RULES.

Rules will be few and only such as can be followed by any faithful student. Absolute obedience will be required without respect of persons. Exceptions will be made only when reasons satisfactory to the Faculty are given in writing by parents or guardians.

Every student must devote at least eight hours a day, for five days in the week to study and recitation. A careful record is kept of the Deportment, Punctuality and Scholarship of each student, and full monthly reports will be sent to parents and guardians.

SPECIAL STUDENTS.

Special students may take any studies they wish, coming in the terms which they attend, and on examination, may receive Certificates of Proficiency in such studies but no Degree or Diploma is given, except for completing some one of the regular courses.

OPENING.

All students should be present on Tuesday, September 9th, if possible, as there will be a general reunion of teachers, students and friends, at the University, that night.

The opening exercises, Wednesday morning, will be followed by a special address from the President on the "Work of this Year," after which students will be enrolled, classes organized and lessons given, ready for recitation on Thursday. *Do not miss the first lesson.*

RELIGIOUS.

The spirit of the institution will be distinctly religious. While the school is under Presbyterian control, it is not sectarian in the sense of trying to influence the church preferences of any student. Every student is required to attend some church and Sunday school at least once each Sabbath, unless excused by the Faculty.

There are four churches in town—Presbyterian, Congregational, Methodist and Christian, and each student will choose for himself. Every student must own a Bible and have it present at the daily morning Chapel service and at the weekly Bible class. Bible study will form a part of the regular work throughout the year.

Two Christian Associations, one for young men and the other for young ladies, will cordially welcome all students to their ranks and to their meetings.

The Christian influence among our students for the past has been very clear and decided. The most of our last year's students were active church members. We have no hesitation in saying openly that our first and most earnest desire for all the young people committed to our care, is that they may be followers of Christ and workers for Him. Our whole work rests on the Bible, and we unhesitatingly give it the first place among our text-books.

ADMISSION.

The school is open to both sexes and all ages alike. Any person of good, moral character and willing to render cheerful obedience to all requirements, will be admitted to any class for which the required preparation is shown. Students from other schools must give satisfactory evidence of dismissal in good standing, as it is no part of our work to encourage rebellion anywhere.

LIBRARY AND READING ROOM.

The University has a library of more than 5,000 volumes, and additions are constantly being made by generous friends, for which we are always grateful. A complete set of Britannica Encyclopædia was presented during the year by Rev. J. S. Ely, Xenia, Ohio. Also a set of Johnson's Cyclopædia was presented by the students.

Books may be taken out by students for reading, or for use as text books, under certain restrictions, for twenty-five cents per term. The literary societies also have libraries of their own. A Reading Room has been arranged, comfortably furnished, and supplied with the leading newspapers and magazines, both religious and secular, at a slight expense to those enjoying its privileges. Friends or publishers will confer a favor by sending us any paper or periodical for this purpose, or any books for use in the Library.

APPARATUS.

The Laboratory is provided with a large amount of apparatus for illustrative use in the various departments of Natural Science. Gifts for this department. including minerals, fossils or other specimens, or any form of apparatus, will be gladly received from friends of the University. Our present apparatus, costing originally nearly $1,500, has been thoroughly overhauled, refitted and re-arranged, so as to be used to much greater advantage hereafter.

MUSIC AND DRAWING.

Mrs. Maggie Morton, a former student of the Chicago School of Art, has had charge of this department. The regular price for individual lessons in music, drawing or painting has been 50 cts. per lesson, or $12 per term of twenty-four lessons. Arrangements may be made for class lessons at lower rates, depending on the number in class. The use of piano for practice will cost $2.00 per term, one hour each day. Mrs. Morton has had large classes in music and in drawing and a number of pupils in painting. Her work has been very satisfactory, but as the institution could obtain the services of so distinguished a musician as Prof. Ainsworth it was thought best to secure him for the coming year. See music, under remarks on studies, further on.

EXPENSES—BOARD.

Good board with furnished room can be secured at $3.00 to $3.50 per week, according to accommodations. Table board will cost $2.50 per week. Rooms for young men plainly furnished, in a building belonging to the University, can be secured for $1.00 per month for each student, paid in advance, when two students occupy the same room. Unfurnished rooms, 50 cents per month. The Square House, for young men, has been recently repainted, repaired, repapered and made very comfortable. Young ladies can secure rooms unfurnished of partly furnished, in the University Boarding House, but half a square from the college building, at the same rates. One or more of the Faculty will board there, and with the Matron, will have oversight of all boarding students, who will be at all times under the regulations of the Institution.

All students should bring their own towles and napkins, and as far as possible, their own bed clothing, especially sheets and pillow-cases, and any small articles of furniture specially desired. Carpet, stove, bed, table, chairs, washstand and washing utensils are included in a furnished room. Those desiring everything furnished, with care of room, etc, can make arrangements at $3.00 per week, if two occupy one room, or if preferred, can arrange for board in private families, at $3.00 to $3.50 per week. Washing will cost from $5.00 to $12.00 per term, according to kind and amount. Several of our students last year boarded themselves, thus reducing their expenses nearly one-half. Rooms convenient for self boarding can be secured at very low rates, especially where several of the students take rooms together, if arrangements are made sometime in advance. Rooms in the Boarding House or in the Young Men's Dormitory are assigned in the order of application; when these are filled every effort will be made to secure others as cheap, and as convenient as possible, but the rates mentioned above can be promised only for rooms in buildings belonging to the University.

Students living near by, can come in Monday morning and go home Friday evening, paying for the number of meals taken.

TUITION.

When paid by the term, the tuition will be as follows: Fall Term, $12.00; Winter Term, $10.00; Spring Term, $8.00, to those in any studies above the Junior Academic grade. (See Course of Study). To those in the Junior Academic studies only: Fall Term, $10.00; Winter Term, $8.00: Spring Term, $6.00. Besides the tuition, each student pays a Contingent Fee of $1.00 for each term for fuel, janitor, etc.

Twenty-five Dollars paid in advance, in addition to the contingent fees, will purchase an Annual Scholarship, good for the year of issue, for any classes taught in the University. No rebate will be allowed on such Scholarship for non-attendance, but any other member of the same family may take up the part unused.

Children of Missionaries, or candidates for the Gospel Ministry, properly certified, may be received, on application, free of tuition, or at reduced rates, provided the Contingent fees are paid.

Special students taking only one or two studies, will pay at term rates, counting each study at one-third full tuition.

Special Reduced Rates of tuition are given when more than two students in the same department come from the same family.

Tuition in the Elementary Department, for pupils below the Junior Academic grade, is, for the Fall Term, $5.00: Winter Term, $4.00; Spring Term, $3.00, or $10.00 for the year, if paid in advance. No Contingent fees. See "Remarks" on this department on another page.

AGGREGATE EXPENSES.

The aggregate of necessary expenses to students, for all purposes, will be from $40 to $70 per term, or $120 to $175 per year.

Even this amount may be lessened nearly one-half by self boarding, or by faithful work and rigid economy. Society and Reading Room dues amount to less than $2.00 per year; entertainments and contributions for various objects, may amount to $5.00 more. Extravagance, or carelessness in expense in any direction is discouraged both by precept and example. It is very seldom that any student here spends $200 a year, all told, and few of them spend $150. Some of those who stand highest, both in scholarship and social favor with their fellowstudents, are among those who spend the least money. Thus all the influences and surroundings of the school are such as to encourage industry and economy.

All tuition bills must be settled at entrance, by cash or note, with the Treasurer, as the Board has ordered the President to enroll no name until the contingent fee is paid, and to drop any name from the roll if the tuition is not settled within two weeks. These orders will be strictly obeyed.

TEXT-BOOKS.

Suitable text-books may be purchased in Highland, at $3.00 to $5.00 per term, according to studies pursued. Students are advised to bring with them any text books they may have on studies which they wish to pursue. In some cases text-books may be rented, if preferred.

CLASSES.

As all classes are arranged at the beginning of each term, it is of the utmost importance that students be present on the first day, in order to be properly classified, as it is difficult to make any changes after the order is settled.

CORRESPONDENCE.

All letters from students, parents or guardians, in regard to accommodations and prices, will be answered as early and fully as possible. Those of limited means or opportunities are particularly invited to write, stating circumstances, as opportunities sometimes occur where young people, willing to work, or endure inconveniences, may greatly reduce their expenses. Several students paid part or all of their board last year, by work outside of school hours. While we cannot promise this in all cases, yet so far, nearly every one who was willing to work cheerfully and faithfully, has been able to receive something to do.

All students from abroad will be under the direct supervision of the President, who will take pains to secure suitable rooms and boarding places, particularly for young ladies, so that comfort, convenience, and proper surroundings and associations may be secured by all.

LOCATION.

Highland is a small town, situated on the high, rolling prairie lands of Northeastern Kansas, aud noted for its healthfulness and beauty. Its society is moulded by the educational influences of the University. It lies midway between two railroads—the Atchison and Nebraska on the east, and the St. Joseph and Grand Island on the south. Students can come via Atchison or Lincoln to Highland Station, on the A. & N., or via Hiawatha or St. Joseph to Severance, on the St. J. & G. I. Hacks for Highland meet all mail trains at either place. Severance is six miles south, Highland Station is four miles east. Two hours' ride by railroad and hack brings you to Highland from Hiawatha, Atchison or St. Joseph. Dentonville, on the Rock Island (C., K. & N.) R. R., is three miles south of Severance, to which conveyances will run when desired.

In conclusion, we aim to offer the advantages of a true education in many lines, under the best moral and spiritual influences, at the least practicable expense. Respectfully,

A. B. IRWIN, President.

STUDIES AND METHODS.

SCIENCE.

The Mental and Moral Sciences, Logic, Evidences of Christianity, etc., are taught by the President.

The Natural Sciences are taught by Prof. Bayless, who has put the Laboratory into most excellent condition, which furnishes apparatus for numerous experiments in all departments.

MATHEMATICS.

Our course includes Arithmetic, Algebra, Geometry, Trigonometry, Analytical Geometry and Calculus and Astronomy. Prof. Bayless, who has charge of this subject, is an exact and thorough teacher, interesting his classes in their work, and seeing that they thoroughly understand it.

LATIN AND GREEK.

No liberal education is complete without a fair knowledge of Latin and Greek. Latin is the foundation for more than half of our English words, and almost the only language for legal maxims, medical terms and prescriptions, and technical terms in all sciences, arts and professions. We use the English method of pronunciation. The Greeks have always stood first among all nations in Art, Literature and Architecture. They expressed their ideas in words which were the most exact and beautiful molds for thought that the world has ever known. Prof. C. U. Carruth, a graduate of Hamilton College with highest honors, has had charge of this department. He is a most excellent classicist, thorough in his drill work and stimulating in his methods. Much as we regret parting with Prof. Carruth, we believe the chair will be ably filled the coming year by Prof. H. D. Hervey, Granville, Ohio, who brings to the work scholarship and experience.

Prof. D. E. Todd, has given excellent help as assistant in Greek and Mathematics.

GERMAN AND FRENCH.

The ordinary course is three years, when taken in place of Greek in the Scientific or Literary Course, but for others the amount is optional. This has been in the charge, during the past year, of Mrs. Mary A. Todd.

OTHER STUDIES.

A thorough course is provided for in History and Literature. The

use of the English language will receive special attention. Spelling, Grammar, Analysis, Rhetoric and Elocution are insisted on as of first importance to every student.

PENMANSHIP AND BOOK-KEEPING.

These studies naturally go together in the Business Course. Prof. Bayless has had charge of this during the past year. We expect to have a specialist in this line next year.

MUSIC.

Prof. H. L. Ainsworth will have charge of this department the coming year. Prof. Ainsworth is graduate of the Neue Akademie and private pupil of the celebrated Dr. Th. Kullak of Berlin, Prussia. Prof. Ainsworth has a reputation as a master in instrumental and vocal music. He will devote two days of each week to instruction of private pupils or of classes. Terms: Private pupils, per lesson, probably $1.00. For class instruction, much lower rates. We are sure that we can offer to students instruction in this line equal to any given in the West.

ELEMENTARY STUDIES.

For the benefit of those desiring their younger children to study under the same management as their older brothers and sisters, and thus to be influenced to make better preparation for going forward themselves, we have arranged an Elementary Department, carefully organized and classified, to prepare boys and girls thoroughly for the Junior Academic studies. While this department is especially for families living in or near Highland, it is not limited to them, but is open to any who may desire to put their children into a good Elementary School. It will be presided over by Miss Allie Rankin. She will be one of the regular Faculty, and her work will have the same consideration and care as the other departments of the school. For tuition rates, see elsewhere. We have uniformly found that students coming up from our Elementary Department are better trained for advanced studies than those coming in from without.

EXAMINATIONS.

Public examinations, oral or written, will be held September 9th. for students desiring admittance to any of the classes. We adopted a system of grading last year that has made a great difference in our term examinations. If a student's average grade for the term exceeds or equals 90 per cent he is not required to be examined in that study. If it fall below 90 but not below 75 he must undergo a written examination. If his grade fall below 75 or his examination marks fall below 75 he must go into the next lower class. This plan

has so stimulated our students that the grades have been rising higher each month to the end of the year.

ATHLETICS.

No college education is complete without some physical culture. The faculty encourages all healthful out-door sports, believing that the body is as worthy of training as the mind. The College Athletic Club maintains a baseball nine, foot ball team and tennis association. A very successful tennis tournament was held this year, which, together with the Field Day sports, added much interest to the Commencement exercises. We have splendid grounds for out-door sports, but need a better room for winter practice.

CONTESTS.

An Oratorical Association was organized by our students during the year, on the model of the State Association. It held its first contest June 4th, 1890. The first prize was won by Miss Phebe Hills; subject, "Ideals," the second by Sardius Brewster of White Cloud; subject, "Whose is Dthe Fault"? The eclamatory contest occurred June 3rd, the first prize being awarded to Miss Jessie McIntosh, consisting of Shakespeare's Works, the second to Miss May Lester, Beatrice, Nebraska, consisting of the Self-Help Series. These prizes were the gift of John Irwin, Galesburg, Ill.

GENERAL.

COLLEGE PRESS.

Through a gift of Mr. John Irwin, Galesburg, Illinois, supplemented by a gift of the ladies of Highland, the institution has come into the possession of a press and outfit, by which we are able to do all our own printing. A paper called the NUNCIO has been issued fortnightly, with Prof. Bayless as editor. It will always be full of the freshest college news and well worth the subscription price of 75 cts per year.

COLLEGE BAND.

Our students have organized a brass band and under a skillful leader, with but a few months practice, they play very creditably, furnishing music during Commencement week, and have played by engagement in neighboring towns.

LITERARY SOCIETIES.

There are four literary societies. The Erodelphian and Cliosophic are composed of young men; the Atelceta and Eucleian, of young ladies. They arrange their own exercises and govern themselves, subject of course to the control of the institution. They hold sessions once a week and occasionally a public meeting. The farewell addresses by the Seniors and responses by members chosen, together with an annual address from some orator selected for the occasion, constitute one of the pleasantest evenings of Commencement week. Rev. Charles Kloss A. M., Argentine, Kansas, delivered the address this year; subject, "Christian Socialism."

CHRISTIAN ASSOCIATIONS.

The Y. M. C. A. and Y. W. C. A. hold weekly meetings. These are led by one of their own number and are open to all young men and women respectively. Union missionary meetings are held by the two associations once a month. The young men have had two training classes and the young women one. The young men have done some commendable gospel missionary work in the neighborhood. They have joined in the work of the inter-collegiate visitation, by which every college in the state receives one or more visits and makes one or more. They paid to the state work last year $74.00. An annual address is delivered before the combined associations Sunday night of Commencement week. This year the address was by Rev. W. W. Harsha, D. D., L. L. D., of Tecumseh, Nebraska; subject, "Christ, the true and only Savior of the World."

VOLUNTEER MOVEMENT.

Mr. A. N. O'Brien, Vinland, Kansas, presented this matter in a visit last Fall, which resulted ultimately in fifteen students signing the pledge, "I am willing and desirous, God permitting, to become a Foreign Missionary." They organized a mission band which held several meetings during the year.

ALUMNI.

The "Alumni and Old Students' Association" held one of its most interesting meetings during Commencement week. Particular mention may be made of the address by Mr. Scott Hopkins, Horton, Kansas. The proceedings were published in the NUNCIO. The Association gave $325.00 to the Peoples' endowment fund.

ENDOWMENT.

$25.00 will purchase an annual Tuition Scholarship.
$500.00 will endow or purchase a perpetual Tuition Scholarship.
$2,500.00 will endow a full Scholarship, (Board and Tuition).
$25,000.00 will endow a Professor's chair.

Through the liberality of Hon. J. P. Johnson of Highland and the citizens of Highland, the University has now two endowments. The Highland Presbytery at its spring meeting appointed a committee to consider the matter of raising money for a new building to be called the S. M. Irvin Memorial Hall." This committee are resolved to do all that is within their power to accomplish this end. If this building be erected we have strong expectation of reaching two endowments more, making in all four endowments. The task of the committee is gigantic, as the churches of the Presbytery are not wealthy. Contributions to this object will be gratefully received. Rev. H. O. Scott, Hiawatha, Kansas, is chairman of the committe. Father Irvin was one of the founders of the University and labored for fifty years in the cause of Christian education in this community and no monument would be more fitting than the erection of a building bearing his name.
